☎ 083-298-3593 | ✉ tip.t.supoj@gmail.com | 🏠 www.ira66iz.me | 🌐 ira66iz

Summary

A skilled Front-End Developer with over 5 years of experience in building, and maintaining responsive web. Proficient in using modern technologies like React and Next.js to create user-friendly interfaces. Experienced across various projects, including e-commerce platforms, content management systems, and internal business applications.

Work Experience

DevCrew Co., Ltd.

Bangkok, Thailand

FRONT-END WEB DEVELOPER

Jun. 2021 - Present

- [BDMS Wellness Clinic - COVID Passport System] : Built the user interface for a system that managed and displayed COVID-19 health and vaccination records for clinic patients.
- [High Solution of Television Network - Mobile Application] : Developed a cross-platform mobile application using React Native, creating interfaces for both customers to request service and technicians to manage jobs.
- [Soundspace Music - Music Player] : Built a centralized web platform to remotely manage music players across a network of 500+ client branches. The application was designed to handle a media library of over 50,000 songs, streamlining the process of content deployment and playlist updates.
- [GWM Motormall - Website] : Built a responsive and modern company website to showcase vehicles and provide company information to customers.
- [KMITL - Personnel Evaluation System] : Developed the front-end for an internal system used to assess the performance of more than 2,000 employees for compensation reviews and salary adjustments.
- [BigC - E-Commerce Website] : Developed key user-facing features for a large-scale e-commerce website supporting a catalog of over 30,000 items, including product pages and shopping cart functionality.
- [CIMIER Swiss Luxury Watches - E-Commerce Website] : Customized a Shopify theme and built unique sections to create a luxury e-commerce experience, showcasing the brand's exclusive collection of timepieces and narrating its rich history.
- [KMITL - Research & Innovation System] : Delivered a web application that standardized and streamlined the intellectual property management process, from initial submission to automated status tracking.

Jenosize Digital Group

Nonthaburi, Thailand

FRONT-END WEB DEVELOPER

Jun. 2020 - May 2021

- [7Eleven - Live Streaming CMS] : Built the core interface for a live stream CMS, enabling the management of products, coupons, and content scheduling for live broadcasts that attracted over 1,000 viewers per stream.

Freelance

Bangkok, Thailand

FRONT-END WEB DEVELOPER

Jun. 2019 - May 2020

- [FnN Dairies (Thailand) - Fixed Assets Management System] : Developed a centralized system to efficiently track and manage over 5,000 company assets, featuring RFID scanner integration to streamline the physical verification process and reduce manual data entry.
- [Thaibaan - Commission Management System] : Developed a commission management system for the Thaibaan film label to calculate and manage YouTube revenue sharing for its artists. The system processes earnings data from their channel, which has over 4 million subscribers, 1,000+ videos, and has generated over 1,000,000 views.
